A few other misprints are not mentioned in these errata, because they are too obvious to cause any error or confusion. I wish to express my thankfulness to the readers who take the trouble to make the above-mentioned corrections in their set of *Isis* and the *Introduction*. I would advise them, after having accomplished that little task, to write their initials near mine at the bottom of this note to indicate that these and the previous errata have been taken into account. G. S.

INDEX OF NAMES INCLUDED IN THE SIXTY-EIGHTH BIBLIOGRAPHY

The Roman figures followed by (1) or (2) refer to the centurial classification (Part I); thus, Alonso, M. (S.J.), XII(1) means that a paper by Alonso is listed under twelfth century, first half.

The Arabic figures refer to the historical and to the systematic classifications (Part II and III) which are subdivided into sections numbered consecutively from 1 to 60. For instance, Arberry, A. J., 13 indicates that a paper by Arberry is listed in section 13 (Iran); Agar, W. E., 27 indicates that a paper by Agar is listed in section 27 (Biology).

The symbols IV(a), IV(b), and IV(c) refer to the new sections on America, Oceania, and Africa at the end of Part II. For instance, Becker, C. O., IV(a) indicates that a paper by Becker is listed in section IV(a) (America).
